Re: Clissold 2009 Water Use Plan

Dear Mr. Clissold:

The water use plan you submitted for 2009 was received on December 29, 2008. The plan as submitted does not pose any variation from the 2008 plan. Based upon our review, there was one minor adjustment to the water right total available under water right 35-5721. It was reduced from 668.6 ac-ft to 654.54 ac-ft annually. This reduction is the result of recent segregations from the water right. With this minor adjustment your plan is hereby approved for implementation during the 2009 year. The water use should be within the allotted flow and should also be measured and reported by the river commissioners.

Enclosed is the corrected plan as approved. If you have questions regarding this plan feel free to contact Ross Hansen, regional engineer for the Weber River area at (801) 538-7397 or myself at (801) 538-7469.

Sincerely,

Ben L. Anderson, P.E.
Water Rights Distribution Engineer
